

BRIEF OVERVIEW OF NMDC LIMITED

NMDC Ltd. is a Navratna Company under the administrative control of the Ministry of Steel having its Registered Office at Hyderabad. It is the largest producer of Iron Ore in the country. The Company has iron ore mines at Bailadila in Chhattisgarh and Donimalai in Karantaka. It also has a Diamond mine at Panna in Madhya Pradesh. NMDC is also moving from mining company to mining-cum-manufacturing company by setting up of value added projects like 3 mtpa Greenfield Integrated Steel Plant at Nagarnar in Chhattisgarh and Pelletization plant in Chhattisgarh. NMDC has developed 1.2 mtpa Pellet Plant at Donimalai, Karnataka.

Share Capital

As on 31st March 2022, the authorised equity share capital of the company is Rs 400 crores and the paid up equity share capital is Rs 293.06 crores. Government of India holds 60.79% of the paid up equity share capital in the company.

Physical and Financial performance

The physical and financial performance during last 3 years are given below:

Description	2019-20	2020-21	2021-22
Production			
Iron Ore (Lakh Tonnes)	314.89	341.50	421.88
Diamond(Carats)	28537	13681	-
Sales			
Iron Ore(Lakh Tonnes)	315.16	332.52	405.64
Diamond(Carats)	33723	22249	25882
Financial– Rs.In Crores			
Turnover	11699	15370	25882
Profit Before Tax	6122	8902	12981
Profit After Tax	3610	6253	9398
Dividend on Equity Shares	1620	2274	4320

Production units

Production Units:

Presently, NMDC is producing Iron Ore Ore through two production complexes in Chhattisgarh and one complex in Karnataka. It is also operating merchandised diamond mining project in Madhya Pradesh and Pellet plant in Karnataka.

The details of the production projects are given below:

Name of the Production Unit	Designation of Unit Head
(i) Bailadiila Iron Ore Mines ,Kirandul Complex a) Deposit No.14 b) Depsoit No.11C c) Depost No.11B	Chief General Manager
(ii) Bailadila Iron Ore Mines , Bachel Complex a) Deposit No.5 b) Deposit 10 & 11A	Chief General Manager
(III) Donimalai a) Donimalai Ion Ore Complex b) Kumarswamy Iron Ore Mine	Chief General Manager
(iv) Diamond Mining Project , Panna	Project Manager
(v) Sponge Iron Unit, Paloncha	Project Manger

Product Mix

NMDC is presently producing the following products:

1. Iron Ore:
 - a) DR CLO
 - b) Baila Lump
 - c) Baila ROM
 - d) Baila Fines
 - e) BL (10-20)
 - f) Doni Lump
 - g) Doni Fines
 - h) K Lump
 - i) K CLO (10-20)
 - j) K Fines

2. Diamonds (Rough)

3. Iron ore Pellets

Scope of Business

The growth strategy of NMDC envisages largely through brown field expansion of existing mines and improving evacuation along with it. Development of mines in Chhattisgarh has also been undertaken through JV with the State Mining Corporation.

Evacuation infrastructure is being scaled up to sustain increased production plan. Key projects include new Rapid Wagon loading System, Doubling of Kirandul Kothavalsa (KK) railway line, construction of railway line between Rowghat and Jagdalpur and construction of slurry pipelines in Bailadila region.

As a drive for waste to wealth management, R&D has taken up new product development through its intensive efforts for production of high-tech and high value products from blue dust to be used for defence applications. Established usage of kimberlite waste from its diamond mine located at Panna, MadhyaPradesh for preparation of anti fluoride filters to minimize fluoride content in drinking water, Amorphous silica and Zeolite. It has developed a process flow sheet for beneficiation of BHJ/BHQ and a demonstration pilot plant is planned to be constructed at Donimalai. It is developing process for generation of titanium slag using the hydrogen reduction facility available. It has developed process to improve screening efficiency for dry & wet screening of iron ore.

NMDC is also taking up diversification activities into other minerals such as gold, magnesite, limestone, etc.

Status of Board Level Appointments as on 23.08.2022
