The plant facility is certified with ISO 9001:2008 for Quality Management System (QMS), ISO 14001:2004 for Environment Management System (EMS), OHSAS 18001: 2007 for Health Services, SA 8000:2008 for Social Accountability, ISO 14001:2004 EMS for Township.

Alloy Steels Plant, commissioned in 1965, initially comprised of an electric arc furnace (EAF), blooming and billet mill, forge shop and other facilities. Through multiple expansions, capacity of the plant was increased; new stainless steel making facilities were added and further augmented. The total capacity of the plant is 2,46,000 MT per annum of liquid steel and 1,84,000 MT per annum of saleable steel.

3.1 Plant location and connectivity

The Alloy Steels Plant is located in Durgapur, in the Burdwan district of West Bengal, around 175 km from the state capital Kolkata. The plant is located adjacent to Durgapur Steel Plant (DSP) which is an integrated steel plant of SAIL, in the industrial area of Durgapur. The following map indicates the location of the plant.

Figure 3-1: Location in West Bengal - Alloy Steels Plant

The connectivity and access details of ASP are as under:

- Railway : Plant is connected to the Howrah-Delhi Main Railway line.

Out of the plant area of 741.86 acres,

- Approximately 3.336 acres (13,500 m²) of land has been leased to M/s Goyal MG Gases Private Limited, for setting up and operating a cryogenic air separation unit for supply of gases to ASP, on build own operate (BOO) basis.
- The administrative building is constructed on approximately 5.05 acres of land, and includes the Computers & Information Technology (C&IT) building. Further, license to use has been given to State Bank of India, pursuant to a Memorandum of Understanding, on an area aggregating to 2,594 sq. ft. within the said building.
- ASP substation complex is constructed on approximately 1.49 acres of land comprising Main Power Receiving Substation with six feeders, yard, control room, etc.
- 5.54 acres of land is in possession of Damodar Valley Corporation (DVC) which has constructed a substation on it. In addition, 2.13 acres of land is earmarked to be allocated to the substation. Execution of lease deed with DVC for the said 7.67 acres is under process.

3.2.1 Land proposed to be transferred to ASP- Divested Unit

The management of the Company has stated that out of the total area of 1154 acres approximately, area aggregating to approximately 600.214 acres is proposed to be disinvested as part of the Transaction, as detailed subsequently, whereas the balance area of 553.786 acres would be retained by SAIL.

1. Out of the plant area of approximately 741.86 acres, it has identified approximately 600.214 acres of land, comprising plant area, administration building/ office complex,

ASP substation complex and DVC substation complex which would form part of unit to be divested on long term perpetual lease basis, along with the plant assets located on it. The said area of 600.214 acres includes area of 3.34 acres over which air separation unit has been setup by M/s Goyal MG Gases Private Limited.

The said 600.214 acres were acquired for and on behalf of the Union Government under the Land Acquisition Act, 1894 for the purpose of setting up a steel plant. A part of the said lands were also transferred / conveyed by the President of India to Hindustan Steel Limited by and under a Transfer Deed dated March 31, 1959. Thereafter, HSL was dissolved and all its assets and undertaking including these lands vested with SAIL vide the Public Sector Iron And Steel Companies (Restructuring) and Miscellaneous Provisions Act, 1978.

- Other facilities i.e. residential quarters, out of the township area situated on DSP owned land, would be provided to ASP – Divested Unit on lease/ leave and license basis at market determined rates on the principle of arms' length, for a period of 5 years.

3.3.2 Equipment details – On Build, Own & Operate (BOO) basis

Cryogenic Air Separation Plant – ASP has entered into an agreement with Goyal MG Gases Private Limited for supply of nitrogen and oxygen. The supply infrastructure was commissioned in October 2007 and duration of the contract is 15 years from date of commissioning.

The land for the facility (admeasuring to 3.336 acres) has been leased to the contractor, Goyal MG Gases Private Limited. For the contract period, the contractor would be the owner of the production facility. A fixed facility charge is payable by ASP to the contractor on a monthly basis.

The base price for gases is based on the base cost of power and would vary depending on variance in the base cost of power, linked to a pre-defined price variation formula.

The contracted quantity of gases is listed below.

Table 3-3: Cryogenic Air Separation Plant - Contracted quantity of Gases

S.no.	Gases	Unit (NM ³ / hr)	Ton per day
1.	Nitrogen	1500	45
2.	Oxygen	2920	100

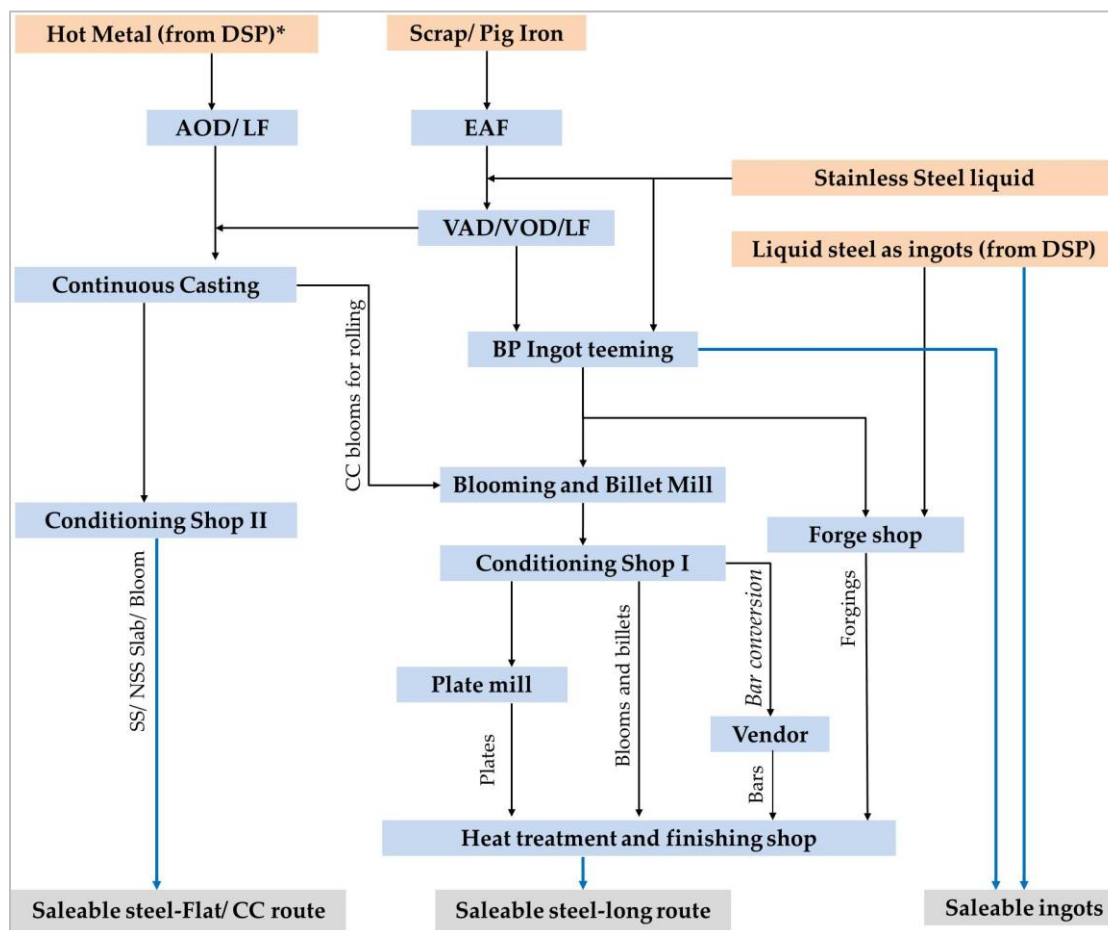

The existing agreement with Goyal MG Gases Private Limited would be assigned to ASP – Divested Unit, subject to prior written consent of Goyal MG Gases Private Limited

Presently, ASP is procuring Argon from DSP-Praxair BOO plant and is distributed by Goyal MG Gases Pvt. Ltd through its pipelines laid inside the plant.

3.3.3 Manufacturing Process

The manufacturing process is presented in the following figure.

Figure 3-2: Overview of the manufacturing process

3.3.4 Renovation and Modernization

Some of the major capital repair and maintenance presently being undertaken at ASP are listed below:

Table 3-4: Major on-going capital repairs at the plant as on December 31, 2017

S.no.	Activity	Cost of Works (in Rs. lakh)

2.	Replacement of 100T bails for SMS Pit side cranes	49.52
3.	Replacement of Water Cooling Tower at main Pump House	345.00
4.	Up-gradation of Roof of one of the EAFs	31.12

The estimated cost of the aforesaid repairs and maintenance work is Rs. 445.27 lakh of which Rs. 13.66 lakh has been incurred till December 31, 2017.

3.4 Plant infrastructure

3.4.1 Water

The plant gets raw water from Arjunpur Pump House of DSP on chargeable basis. The water is treated at the plant to produce industrial quality make up water and drinking water. Average intake of raw water from DSP is 2,919 m³/day. Industrial make up water is pumped to supply make up water to different re-circulating pump houses to compensate losses mainly due to evaporation. There are two circulating water treatment plants / pump houses, to supply water to equipment in steel melting shop, continuous cast shop, and other areas of plant.

Water is proposed to be supplied to ASP - Divested Unit from DSP on long term basis at rates determined on the principle of arms' length.

3.4.2 Power Supply

The power requirement at the plant is met from DSP. The power supplied by DSP is a mix of a captive power from NTPC-SAIL Power Company Limited (NSPCL) and from Damodar Valley Corporation (DVC). The maximum permitted power demand is 35 MVA.

Power is supplied to the main receiving sub-station of ASP and forwarded to arc furnaces, mills, gas manufacturing unit and for auxiliary consumption.

ASP - Divested Unit will be required to make its own arrangement for power procurement by entering into a power purchase agreement with DVC and other power suppliers and trading partners for the quantum of power required for production. In the interim, power is proposed to be supplied, for a period of 1 (one) year, at market determined rates on the principle of arms' length.

3.4.3 Fuel Oil Pump House

Fuel oil is pumped at a pressure of 6 to 6.5 Kg/cm²g to supply it to different installations in the plant like soaking pits, FS re-heating furnaces, boilers, ladle heaters in SMS / CCS, AOD, tundish pre-heaters in CCM etc. Fuel Oil is procured from Indian Oil Corporation (IOC) normally through railway tank wagon rake and stored in 4 storage tanks installed at fuel oil pump house of total capacity 3,500 kL.

Presently, Coke Oven gas is sourced from DSP through Coke Oven gas pipeline. However, almost all furnaces/ shops at the plant have dual burners for utilizing alternate fuel, such as low-viscosity furnace oil or CBM, in the absence of coke oven gas.

Coke Oven gas is proposed to be supplied to ASP - Divested Unit from DSP for 1 (one) year at market determined rates on the principle of arms' length, subject to availability.

3.4.4 Rail track

The plant has a 42 km railway track till the DSP rail gate out of which about 37 km is inside the area of approximately 600.214 acres identified to be divested. The track is maintained by Permanent way engineering (PWE) of the plant.

The plant possesses two locomotives of 750 HP and one locomotive of 600 HP, four smaller locomotives, multiple rail cranes and dumpers. The plant also possesses 22 8-wheeler wagons and over 80 mould cars.

However, ASP does not have its own railway siding and utilizes the siding of DSP. There is a common railway exchange yard situated about 6 km from weigh bridge of DSP near ASP boundary wall. Rakes are handed over by the railway authorities at the railway exchange yard to DSP which then hands them over to ASP at the aforesaid weigh bridge near ASP boundary wall, for which ASP pays haulage charges to DSP.

A 'Shared facilities and support services' agreement would be executed between SAIL and the Successful Bidder for utilizing railway siding and related infrastructure. Salient features of the said agreement are as under:

- ASP - Divested Unit would be given a long term right to use the railway exchange yard and related infrastructure and services of DSP.
- ASP - Divested Unit would be given a long term right to use the rail track outside the identified 600.214 acres proposed to be divested, and its maintenance shall be undertaken by the Successful Bidder.

Further details regarding the said agreement shall be provided in the CIM.

3.10 Safety and quality control

Safety and Fire services

Safety is taken care of by Safety Engineering & Environment Control Department. The fire crew attends to fire calls in case of an emergency, rescue work and maintains fire-fighting equipment in working order through periodic checks. The fire crew wing also performs mock drills and provides training to increase awareness on first aid and fire-fighting among the employees and contract labour at the plant.

Fire Services are provided by CISF/ Fire located at ASP, which currently employs 64 people.

Quality control

Research and Control Laboratory (RCL) Department of ASP is in-charge of quality control at ASP. RCL has full control over the quality of the processes and products at various stages from melting to finishing and dispatch. Process control, inspection and testing wings under RCL are involved to maintain the quality. Process Control wing observes the metallurgical processes and suggests corrective measure for the online processes. They set the outline of new processes and are responsible for process modification and new product developments. Macrostructure determination on steel by deep etching is also done by process control.

Inspection wing visually inspects the surface of products after exposing the surface by grinding or shot blasting and checks the dimension of the material. The RCL has chemical, mechanical and ultrasonic testing facilities.

ASP is certified with ISO 9001:2008 for Quality Management System and with ISO/TS 16949 Quality Management System for Automotive Industry.

Inter Unit Current Account-

The Inter Unit Current Account is maintained to account for the transfer of resources between SAIL Corporate office and other units of SAIL and ASP. The amount owed to and due from these branches is stated as current liability and current asset respectively. The closing balances of receivables/payables of ASP (other than those due to/ from SAIL Corporate Office) are transferred to SAIL Corporate Office's Inter Unit Account at the beginning of the next financial year. There are net liabilities due to the corporate office from ASP under this account.

It is clarified that no assets/ liabilities on account of inter-unit adjustments would be transferred to the ASP – Divested Unit.

Audited Financial Statements of ASP for FY 2016-17 has been provided in Appendix I.

4.3 Working Capital Facilities of SAIL

SAIL has availed Working Capital facilities of Rs. 13,500 crore from a Consortium of 15 Banks led by SBI. The facility is secured by hypothecation of whole of the current assets of SAIL and all capital equipment procured under project related LC (Capex LC), both present and future.

Accordingly, all current assets of ASP are hypothecated and NOC from lenders for exclusion of current assets of ASP from the hypothecated assets would have to be obtained prior to transfer of the same to ASP – Divested Unit.

4.4 Contingent Liabilities

The contingent liabilities associated with ASP as on March 31, 2017 are listed below.

In its judgement, the Central Administrative Tribunal (CAT), Kolkata has directed that Ministry of Steel shall take appropriate decision of payment of revised perks and allowances amounting to Rs. 8.71 crore, for the period 26.11.2008 to 4.10.2009. A stay petition in the matter has been filed on 22.12.2016 and is pending before the Calcutta High Court. The matter is presently sub-judice.

5. VALUE DRIVERS

5.1 Strengths

- **Well established facility:** The major facilities of the plant were commissioned in 1965, since then multiple facilities have been commissioned, including installation of an electric arc furnace and AOD converter in 2007.
- **Logistics and supply chain:** The plant is well connected to major consumption centres and raw material sources through an established road network through the NH 19 and through railway exchange yard at DSP.
- **Financial flexibility:** The capex and working capital requirement of the plant operations are funded by debt raised at the corporate level, through transfers from inter-unit current account. However, the aforementioned debt and liabilities associated with inter unit current account will not form a part of the ASP – Divested Unit. ASP- Divested Unit, hence, will have negligible leverage in an industry where most major players have high finance costs and substantial debt.
- **Technology Suppliers:** The equipment has been supplied from reputed companies including Danieli, Hitachi, Sumitomo, Mitsubishi etc.
- **Presence of industrial units in the region:** There are several industrial units associated with steel products manufacturing located in West Bengal.
- **Product mix:** The output/ products from the plant facility have an established market base with consumers such as the factories of Indian Railways and ordnance factories.

5.2 Opportunities

- **Boost to Indian Infrastructure Sector:** Demand for steel in India is expected to be driven by increasing infrastructure spending due to following reasons:
 - Growing urbanization coupled with rising income levels of the burgeoning Indian middle class
 - Several Government initiatives to boost construction and infrastructure sectors like Make in India, Smart Cities, Digital India and Skill India, Affordable housing, expansion and development of railway networks and shipbuilding, etc.
- **Focus of Government on Steel Sector:** The Government of India has recently approved National Steel Policy 2017 to give impetus to the Steel Sector. Some of the key features of the policy are as follows:
 - To increase steel-making capacity from 100 MT in 2016-17 to 300 MT by 2030-31
 - Ministry to ensure availability of raw materials to steel companies at competitive rates
 - To facilitate increase in consumption of steel from existing per capita consumption of 60 kg to 160 kg by 2030-31
 - To provide preference to domestically manufactured iron and steel products in government mandates valued for over Rs 50 Crore
 - To make India self-reliant in meeting the demand for high grade automotive steel, electrical steel, special steels and alloys for strategic applications
 - For alloy and special steel industry

- Necessary efforts will be made to collaborate with foreign players for technical and strategic cooperation
- Ministry would encourage steel producers to have strategic ventures in production and development of technologically more complex products including high end varieties of alloy steel and electrical steel
- For stainless steel industry,
 - Necessary efforts will be made to protect the existing & upcoming stainless steel facilities from unfair trade practices through suitable trade remedial measures
 - Greater use of stainless steel in residential or commercial constructions in coastal and earthquake prone areas of the country will also be promoted.
 - Use of high quality stainless steel in drinking water pipelines, water storage, packaging of food grains etc. will be promoted to prevent intake of hazardous impurities
- **Anti-Dumping Duty/ CVD on CRSS:** In order to protect the domestic stainless steel industry from continued dumping of these goods, the Government had imposed anti-dumping duty ranging from 4.58% to 57.39% of landed value on Cold Rolled Flat Products of Stainless Steel from China, Korea, European Union, South Africa, Taiwan, Thailand and USA on April 17, 2014, which was further extended by five more years as per Government notification dated December 11, 2015. Further, the government recently imposed 18.95% countervailing duty (CVD) on some hot-rolled and cold-rolled stainless steel flat products originating in or exported from the People's Republic of China.
- **Make in India:** The "Make in India" initiative is expected to witness significant investments in Construction, Infrastructure, Automobile, Shipbuilding and Power sectors, which will stimulate steel demand. Use of cost efficient and competitive 'Indian Made steel' will pave the way for infrastructure development and construction activities in the country.

Except with the prior written consent of the Company and the Government, and except as expressly permitted by such definitive share purchase agreement, the Receiving Party will not directly or indirectly disclose to any Person the fact that any discussions or negotiations are taking place concerning the Transaction, including the status and content of such discussions or negotiations.

6. 8. The confidentiality obligations contained in this Undertaking may, at the discretion of the Government, the Company and the Advisors, be amended, modified or superseded upon the Interested Bidder and/or any company formed and promoted by them for executing Definitive Agreements, but shall be without prejudice to any of the Advisors', the Government's or the Company's rights in respect of any breach of this Undertaking which may have occurred prior to such amendment, modification or supersession.

9. The Interested Bidder agrees that the Government reserves the right, in its sole discretion to modify the process of the Transaction in any part and/or to vary any terms at any time without prior notice to the Interested Bidder and/or to reject any or all proposals made by the Interested Bidder with regard to the Transaction.

Any such destruction pursuant to the foregoing must be confirmed by the Interested Bidder in writing to each of the Advisors, the Government and the Company (such confirmation must include a list of the destroyed materials). The Interested Bidder acknowledges that the return of the Confidential Information and the return or destruction of the Confidential Information pursuant to termination or otherwise shall not release the Receiving Party from its obligations under this Undertaking.

10. The Receiving Party shall not deal or communicate (except in the ordinary course of its business) with any officer, director or employee of the Government or the Company regarding the business, operations, prospects or finances of the Company or the Plant, without the Advisors' prior written consent. It is understood that the Advisors will arrange for appropriate contacts for due diligence purposes in connection with the Transaction. 11. The Disclosing Party and its employees shall not reveal their identity and/or contact any member of the Company or the Administrative Ministry/ DIPAM and also keep the data/information of the Company and ASP (shared as part of Transaction) strictly confidential.
12. The Government and/or the Company reserves the right, in its sole discretion, to reject any and all proposals made by the Receiving Party with regard to the Transaction and to terminate discussions and negotiations with the Receiving Party at any time. Without limiting the preceding sentence, nothing in this Undertaking (i) requires either the Interested Bidder or the Government to enter into the Transaction or to negotiate such Transaction for any specified period of time or (ii) requires the Advisors, the Government or the Company to enter into an agreement or an understanding, or prohibits the Advisors, the Government or the Company from entering into any agreement or understanding, for proceeding with the Transaction with any other Person.
13. In the event that the Receiving Party is not declared as the Successful Bidder, it shall not, directly or indirectly, solicit for employment or hire any employee of the Company for a period of 1 year from the date of this Undertaking or till six months from the completion of the Transaction, whichever is later.
14. The Receiving Party agrees that from the date of this Undertaking till the completion of the Transaction or till the time the Interested Bidder decides not to proceed with the Transaction, as the case may be, the Receiving Party shall not, directly or indirectly, buy, sell, negotiate, or enter into any arrangements for the purchase of any interest in ASP, or advise any other person directly or indirectly to buy, sell, negotiate or enter into any arrangements for purchase and / or sale of any of the shares of the Company, or take any action or make any statement or announcement that may affect the price of the shares of the Company on any stock exchange or elsewhere or which may affect the existing shareholding structure of the Company.
15. The Interested Bidder understands, acknowledges and agrees that the Government, the Advisors and the Company retain the right to determine, in their sole discretion, the information that they wish to make available to the Receiving Party and the personnel through whom the same will be made available. Further, nothing in this Undertaking shall amount to or be construed as the Disclosing Party making any representations or warranties, express or implied, as to the accuracy and/or completeness of the Confidential Information and the Disclosing Party shall have no liability whatsoever to the Receiving Party resulting from the Interested Bidder's use of the Confidential Information. The Interested Bidder also

agrees that if it determines to proceed with the Transaction, its determination will be solely based on the terms of the Definitive Agreements as well as on its own investigation, analysis and assessment of its investment. Moreover, unless and until such agreements are entered into, neither the Government nor the Interested Bidder will be under any legal obligation of any kind with respect to the Transaction except for the matters specifically agreed to in this Undertaking or in another written and duly executed Definitive Agreement.

16. The Interested Bidder hereby indemnifies and agrees to hold the Advisors, the Government and the Company indemnified and harmless from all and any damages, losses, costs, or liabilities (including legal fees and the cost of enforcing this indemnity) arising out of or resulting from any unauthorized use or disclosure by any Receiving Party of the Confidential Information or other violation of this Undertaking (notwithstanding that a Receiving Party may not be party to this Undertaking) or of any similar undertaking or agreement. In addition, because an award of money damages (whether pursuant to the foregoing sentence or otherwise) would be inadequate for any breach of this Undertaking or any similar undertaking or agreement by the Receiving Party and any such breach would cause the Disclosing Party irreparable harm, the Interested Bidder also agrees that, in the event of any breach or threatened breach of this Undertaking or such similar undertaking or agreement, the Advisors, the Government or the Company will also be entitled, without the requirement of posting a bond or other security, to equitable relief, including injunctive relief and specific performance. Such remedies will not be the exclusive remedies for any breach of this Undertaking but will be in addition to all other remedies available at law or equity to the Advisors, the Government and/or the Company.
17. The Interested Bidder understands, acknowledges, confirms and agrees that each of the Government, the Company and the Advisors are beneficiaries under this Undertaking. The Interested Bidder further agrees and confirms that each of the Government, the Company and the Advisors, will be entitled to and may enforce, either individually or jointly, the obligations imposed on the Receiving Party under this Undertaking.
18. The Receiving Party agrees that in case the Interested Bidder or any Consortium Member decides not to proceed with the Transaction or if the GOI/ Company/ Advisors notify the Interested Bidder or any Consortium Member that the GOI/ Company does not wish the IB or any such Consortium Member to consider the Transaction any further, the terms of the Undertaking shall survive on even subsequent to the date of receipt of notification of such decision by the relevant party.

19. The Interested Bidder agrees that no failure or delay by the Advisors/the Government / the Company in exercising any right, power or privilege hereunder will operate as a waiver thereof nor will any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any right, power or privilege hereto.
20. The terms of this Undertaking may be varied only with the Company's and the Government's prior written agreement. This Undertaking shall be effective as of the date first above given on the first page of this Undertaking.
21. This Undertaking shall be governed by and construed in accordance with the substantive laws of India without giving effect to its conflict of law principles.

OFFICE MEMORANDUM

Sub: Guidelines for qualification of Bidders seeking to acquire stakes in Public Sector Enterprises through the process of disinvestment

Government has examined the issue of framing comprehensive and transparent guidelines defining the criteria for bidders interested in PSE-disinvestment so that the parties selected through competitive bidding could inspire public confidence. Earlier, criteria like net worth, experience etc. used to be prescribed. Based on experience and in consultation with concerned departments, Government has decided to prescribe the following additional criteria for the qualification / disqualification of the parties seeking to acquire stakes in public sector enterprises through disinvestment:

- a) In regard to matters other than the security and integrity of the country, any conviction by a Court of Law or indictment / adverse order by a regulatory authority that casts a doubt on the ability of the bidder to manage the public sector unit when it is disinvested, or which relates to a grave offence would constitute disqualification. 'Grave Offence' is defined to be of such a nature that it outrages the moral sense of the community. The decision in regard to the nature of the offence would be taken on case to case basis after considering the facts of the case and relevant legal principles, by the Government. 'Grave Offence' would include the below noted cases:

- a. Only those orders of SEBI are to be treated as coming under the category of ‘Grave Offences’ which directly relate to ‘fraud’ as defined in the SEBI Act and/or regulations.
 - b. Only those orders of SEBI that cast a doubt on the ability of the bidder to manage the public-sector unit, when it is disinvested, are to be treated as adverse.
 - c. Any conviction by Court of Law;
 - d. In cases in which SEBI also passes a prosecution order, disqualification of the bidder should arise only on conviction by the Court of Law.
- b) In regard to matters relating to the security and integrity of the country, any charge-sheet by an agency of the Government/ conviction by a Court of Law for an offence committed by the bidding party or its Associate Company as defined in Companies Act, 2013 would result in disqualification. The decision in regard to the relationship inter-se between the concerns would be taken, based on the relevant facts and after examining whether the two concerns are substantially controlled by the same person/persons.
- c) In both (a) and (b), disqualification shall continue for a period that Government deems appropriate.
- d) Any entity, which is disqualified from participating in the disinvestment process, would not be allowed to remain associated with it or get associated merely because it has preferred an appeal against the order based on which it has been disqualified. The mere pendency of appeal will have no effect on the disqualification.
- e) The disqualification criteria would come into effect immediately and would apply to all bidders for various disinvestment transactions, which have not been completed as yet.
- f) Before disqualifying a bidder, a Show Cause Notice why it should not be disqualified would be issued to it and it would be given an opportunity to explain its position.
- g) These criteria will be prescribed in the advertisements seeking Expression of Interest (EOI) from the interested parties. The interested parties would be required to provide the information on the above criteria, along with their Expressions of Interest (EOI). The bidders shall be required to provide with their EOI an undertaking to the effect that no investigation by a regulatory authority, which if decided against the bidder, may disqualify the bidder in terms of (a) & (b) above or the eligibility criteria prescribed in the EoI, is pending against them. In case any investigation is pending in case which if

decided against the bidder, may disqualify the bidder in terms of (a) & (b) above on the eligibility criteria prescribed in EoI against the bidder or the concern in which the bidder has substantial interest or against its CEO or any of its Directors/ Managers, full details of such investigation including the name of the investigating agency, the charge/ offence for which the investigation has been launched, name and designation of persons against whom the investigation has been launched and other relevant information should be disclosed, to the satisfaction of the Government. For other criteria also, a similar undertaking shall be filed along with EOI.

Dated 18th September, 2002

OFFICE MEMORANDUM

Sub: Participation of Central Public Sector Undertakings (PSUs)/Cooperative Societies controlled by the Government in disinvestment of other PSUs.

The undersigned is directed to say that the issue of participation of Central Public Sector Undertakings (PSUs) and Central Government owned Cooperative Societies in the disinvestment of other PSUs has been engaging the attention of the Government for the past some time. Government has examined this issue in the light of policy of the Government on Disinvestment.

2. After careful examination of the various issues, the Government of India has now decided that henceforth, as a general policy, Central Public Sector Undertakings and Central Government owned Cooperative Societies (i.e. where Government's ownership is 51% or more), should not be permitted to participate in the disinvestment of other PSUs as bidders. If in some specific case, any deviation from these restrictions is considered desirable in public interest, the Ministry/Department concerned may bring up an appropriate proposal for consideration of the Core Group of Secretaries on Disinvestment.

3. The Ministries/Department are requested to communicate the above decision of the Government to all the PSUs and the Cooperative Societies under their administrative control.

Annexure 11C: Guidelines for Management-Employee Bids in Strategic Sale.

No. 4(38)/2002-DD-II
Government of India
Ministry of Disinvestment

Block No. 14, CGO Complex,
Lodi Road, New Delhi -110003.
Dated: 25th April, 2003

OFFICE MEMORANDUM

Employee participation and protection of employee interests is a key concern of the disinvestment process. The practice of reserving a portion of the equity to be disinvested for allocation to employees, at concessional prices, has been adopted in a number of cases. It is necessary and expedient to evolve and lay down guidelines to encourage and facilitate management-employee participation in the strategic sales and thus to acquire controlling stakes and manage disinvested public sector undertakings. The undersigned is directed to state that Government has, therefore, decided to lay down the following guidelines for evaluating employee/management bids:-

- i. The term 'employee' will include all permanent employees of a PSU and the whole time directors on the board of the PSU. A bid submitted by employees or a body of employees will be called an "employee bid".
- ii. At least 15% of the total number of the employees in a PSU or 200 employees, which ever is lower, should participate in the bid.
- iii. An employee bid would be exempted from any minimum turn over criterion but will be required to qualify in terms of the prescribed net worth criterion. They will be required to follow the procedures prescribed for participation by Interested Parties in the process of strategic sale including, but not limited to, filing the expression of interest along with all details, as applicable to other investors, furnishing of bank guarantee for payment of the purchase price etc.
- iv. Employees can either bid directly and independently or, for the purpose of meeting the financial criteria like net worth, can form a consortium or bid through a joint venture (JV) or a special purpose vehicle (SPV), alongwith a bank, venture capitalist or a financial institution. However employees will not be permitted to form consortia with other companies.
- v. If the bidding entity of the employees is a consortium, JV or SPV, employees must have a controlling stake and be in control of the bidding entity.

- vi. If the bid is submitted through a consortium, JV or SPV, employees must contribute at least 10% of the financial bid.
- vii. If the employees form a consortium, the consortium partners would be prohibited from submitting individual bids independently.
- viii. If it is not the highest bid, the employee bid shall be considered only if the said bid is within 10% of the highest bid.
- ix. The employee bid shall, subject to fulfilling the conditions above, have the first option for acquiring the shares under offer provided they match the highest bid and the highest bid being equal to or more than the reserve price.
- x. If the employee bid is not the highest bid and there are more than one employee bids within the 10% band, the highest of the employee bids will have precedence for purchase at the highest bid. If such employee bidder is unwilling or unable to match the highest bid, the option will pass on to the next highest employee bid and so on till all the employee bids, within the 10% band, are exhausted.
- xi. In the event of no employee bidder, within the 10% band, being willing or able to match the highest bid, the shares under offer will be sold to the highest bidding entity.
- xii. There will be a lock in period of three years for the shares disinvested by the Government.

2. All the bidders for the management-employee buy-outs will also have to satisfy the provisions of the 'Guidelines for qualification of bidders seeking to acquire stakes in Public sector Enterprise through the process of disinvestment' issued vide the then Department of Disinvestment's Office Memorandum No.6/4/2001-DD-II dated 13th July 2001 or as amended subsequently along with other qualification criterion as generally applicable and not specifically excluded herein.
